

Landserv Pty Ltd

ENVIRONMENT POLICY

Landserv is committed to improving the environmental management of our activities and services.

Our vision is progressive and balance solutions for our earth and community. We value partnerships formed through trust and integrity. We are accountable and professional, drawing on innovation and excellence to enhance our environment. That is our business.

Our objective is to protect, conserve and enhance the natural environment and its resources.

To achieve our commitment and objectives we will:

- Set clear, concise and compulsory environmental policy;
- Address significant environmental aspects and impacts resulting from our activities, and implement control measures to mitigate risks to the environment;
- Set and annually review environmental objectives and targets;
- Continually improve our environmental management system;
- Prevent pollution of the environment where possible;
- Use a consultative approach to environmental protection, assessment and enhancement;
- Comply with relevant legal and other requirements;
- Communicate this policy to all Landserv employees, stakeholders, contractors and the community.

All Landserv employees and contractors are responsible for complying with this policy within the capacity of their position.

Damien Chappell
Managing Director
